These are the standard powdercoat colors offered by Perpetual Enterprises. All other colors require a special quote.

Our powder coat finish supplier is a major vendor to the office furniture industry. This allows us to offer many of the colors available through other manufacturers. Please call customer service with manufacturer's name and color number for availability. In most cases these colors are available at a minimal or no up-charge. Sample chips are available upon request.

Please note that this page is for general reference only. Due to the effects of heat, light, and printing limitations, colors may vary slightly from actual finishes supplied. For a more accurate representation of these colors, please contact us for a sample chip.
